Handout 1

Activity 5: The price of House C

Information

For House A: 22’ X 45’ X 2 floors = 1980 sq. ft
For House B: (22’ X 45’ X 2 floors) + (22’ X 10’) = 2200 sq. ft
Price of House A is RM235, 400
Price of House B is RM253, 000

Given the information above, what is the price of house C where L = 1540 and B = 2400?
